- The field is growing
- You can have a rewarding career without a bachelor's degree
- Competitive Wages, starting at $14-30.58 hourly
- Room for advancement
- Demand continues to increase

*********************

The Basic HVAC Certificate Program is designed to introduce students to the HVAC industry. Through 60 hours of instruction, participants will learn HVAC knowledge and skills necessary to enter the HVAC field. Along with basic training, in theory, students will receive hands-on instruction needed to diagnose and repair HVAC systems. Students will also participate in workshops and receive training via an HVAC training simulator. Finally, students will receive extensive instructions in preparation for passing the EPA 608 certification exam.
